

**STOP
NORTH
KOREA'S ILLICIT
MARITIME ACTIVITY**

UP TO \$5,000,000 REWARD FOR INFORMATION

Despite tough international sanctions levied against it, North Korea continues to engage in illicit activities that fund its nuclear and missile programs. Through offshore ship-to-ship transfers of coal and oil, manipulation of maritime tracking data, front companies, and money laundering, North Korea endangers global security.

The U.S. government is offering a reward of up to \$5 million for information that leads to the disruption of illicit North Korea-linked financial activities. Absolute confidentiality is assured. If you have information on such activities, please send an e-mail to northkorea@dosinfo.com.

For more information, please see the U.S. Department of Treasury's Advisory on North Korea's illicit shipping practices at www.treasury.gov.
